BRIGHT ATSIATORME

nanabrightatsiatorme@gmail.com | 0540775551 | Takoradi Ghana

Summary

Diligent College Student specializing in Computer Engineering with expertise in cybersecurity and network engineering. Dedicated to prompt project completion and continual adaptation to emerging technologies. A team-oriented collaborator, I ensure equitable task distribution in group projects and am motivated to achieve mutually held goals, particularly in the realms of network engineering and cybersecurity.

Skills

- Cyber Security
- Network engineering
- System Hacking
- Bug Bounty
- Website Hacking and Penetration Testing
- Analytical Skills
- Network Hacking
- Backend and Database Skills using Django and mysql

Experience

Prodigy Info Tech| India

Cybersecurity intern

01/05/2024-31/05/2024

- Developed a packet sniffer tool to capture and analyse network packets, displaying relevant information such as source and destination IP addresses, protocols, and payload data.
- Created a basic keylogger program focused on logging keystrokes and saving them to a file.
- Built a password strength assessment tool that evaluates the strength of a password based on criteria such as length, presence of uppercase and lowercase letters, numbers, and special characters, providing feedback to users on the password's strength.
- Implemented a Python program capable of encrypting and decrypting text using the Caesar Cipher algorithm, allowing users to input a message and a shift value for encryption and decryption operations.

EduGhana | Kumasi, Ghana

Django Backend Developer Intern

10/2023-12/202

- Developed and maintained automated scripts for deploying applications to cloud-based environments

- Implemented bug fixes and performance improvements on existing backend systems collaborated with frontend developers to ensure a seamless integration of UI components with the backend infrastructure.

Education and Training

Kwame Nkrumah University of Science and Technology| Kumasi

Bachelor in Computer Engineering

Expected in 09/2024
